BUBBLEBODDY is a display sans serif typeface family designed by Francesco Canovaro.

BUBBLEBODDY is a round, chunky font with an original '80s touch and all the juicy sweetness of bubblegum. Great for logos and cute graphics.

BUBBLEBODDY features an extended character set (including Greek and Cyrillic alphabets with a full range of accents and diacritics) that covers over 40 languages; it comes in five weights ranging from thin to bold.
